

# Communication Tips and Techniques in Alzheimer's Disease

As Alzheimer's disease progresses, people with the disease lose their ability to use words to communicate. Join us to learn how to improve communication at each stage of the disease, including how to recognize behavior as a form of communication. Topics will include how to identify verbal and non-verbal messages to connect with the person living with Alzheimer's disease.

*A light supper will be served at 5:30 p.m.*

**Thursday, September 13, 2018**
